PROJECTS

1 . E Commerce Mobile Application-projectlink

An E-Commerce mobile app takes personalization to the next level. With an app, you'll be able to track the user's browsing and purchase history to offer custom recommendations. This is possible from a website as well, but it's reliant on the customer always being logged in, so it's much easier to accomplish from an app

Technology Use: Flutter SDK, Dart Programming

2 . Mine Personal portfolio-projectlink

An online representation of work I have created, as well as my skills and experiences

Technology Using :

HTML,CSS,Javascript,React
